

2020 COLLECTION

Behind every Chaparral is a story of family, tradition, and one-of-a-kind craftsmanship. After starting in Ft. Lauderdale, Florida, Chaparral made the move to Nashville, Georgia and established a brand that acheived international acclaim.

Today, after 55 years of boat building excellence, our global operations still stem from that same Georgia location where we proudly employ many second and third generation boat builders who are as passionate about boating as you are.

QUALITY FIRST.

At Chaparral, boat building is not just a science - it's an art form. Each model is hand crafted with pride, integrity, and quality by Chaparral's team of experts, many of whom are third generation boat builders. Building quality into our boats starts at the earliest design phases and continues throughout every stage of production. We pay attention to every feature and component, down to the hand stitched details on our upholstery. Making quality part of our DNA creates a final product that we're proud to present. Step onboard and immerse yourself in the quality of a Chaparral.

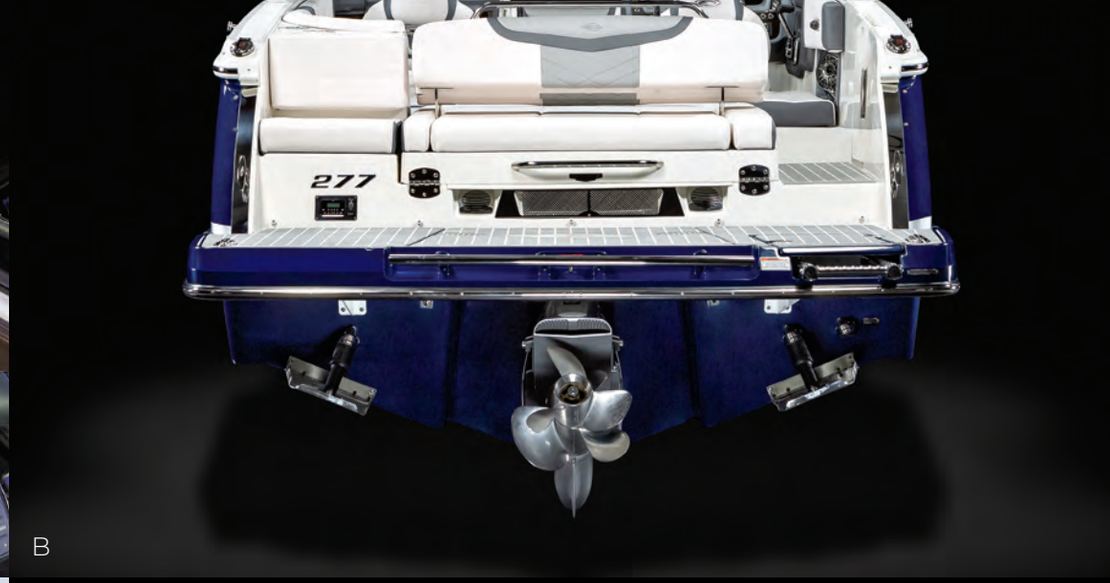

LUXURY STANDARD.

Chaparral's refined style lends itself to luxury details like hand-stitched upholstery, power line hull contours, stainless steel hardware, molded-in diamond pattern non-skid, and well-equipped helm layouts to name a few. Going further, Chaparral provides all of these items standard on every model while maintaining ample storage, flexible seating and attractive pricing. No need to compromise when luxury is standard.
