

DISCOVERY / SOUTHERLY 57 SAILAWAY PRICE £1,475,000 EX VAT

Southerly - Raised saloon blue water cruisers with unparalleled versatility and performance

Very deep high aspect keels that swing away for shallow water access, very stable with stunning sailing ability

STANDARD OPTIONS

HULL

Heavy duty GRP moulding, hand laid up to Discovery's precise laminating system incorporating multi-axial and unidirectional reinforcements. Thickness increases progressively towards the keel area. The keel box is an integral part of the hull lay-up and sandwich construction stiffening runs the entire length of the hull topsides. All main bulkheads are bonded into the hull at main lay-upstage. 1 year manufacturers warranty - 5 year hull guarantee against osmosis

Standard colour, White

Caveta Line gelcoat, option

Boot top gelcoat. Single or twin option.

Clear gelcoat under waterline with 2 coats of epoxy undercoat ready for clients specified antifouling option or replaced with copper coat option.

Substantial skeg fitted on centreline to protect propeller. Skeg can accommodate stern thruster (option)

The variable draft keel is a solid cast iron aerofoil fin, pivoted in the grounding plate and raised by a hydraulic hoist which enables the keel to be set at intermediate points or fully retracted into the hull, at the touch of a button. The fixed ballast is an iron casting which acts as a grounding plate and as transverse and longitudinal stiffening member for the assembly. The fixed ballast casting is fitted into a recess in the hull and secured with multiple stainless steel bolts. All hydraulics are easily accessible for maintenance. Keep control and position indicator panel located at helm station.

DECK

Hand laid up GRP sandwich type construction using foam core stiffening, with plywood in high stress areas where fittings are positioned. Heavily stressed areas are additionally reinforced with unidirectional glass reinforcement. The deck is bonded to the hull through the entire length and to all main bulkheads resulting in a strong and integrated unit.
