INTRODUCING THE NEW PEARL 62

Pearl Yachts latest new model boasts even more contemporary design, cutting edge technology and enhanced performance and versatility.

The new Pearl 62 has been once again created by the successful collaboration between award-winning naval architect Bill Dixon and world-renowned interior designer Kelly Hoppen, MBE. This 18.6 meter yacht exclusively offers 4 guest cabins plus crew accommodation (or a jet ski garage) and 5 years of warranty.

Sleek lines give the yacht a dynamic and muscular look for the exterior areas; an interesting contrast with the interior design characterized by Hoppen's renowned calm and elegant style which can be now chosen from four styles - luxury, studio, taupe, modern - to match each owner's taste. Designer Kelly Hoppen has given every space an opulent yet simple atmosphere, thanks to a soft mix of materials, textures and an elegant colour palette, that invites guests to relax. The spacious Flybridge, fully equipped with wet bar, fridge and electric barbecue is the ideal space to relax and enjoy the quality of life on board.

The new Pearl 62 features pod-drive propulsion, incorporating joystick control technology that gives the owner the possibility to operate the yacht without crew, if preferred. Powered by twin Volvo IPS 950, 1050 or 1200 engines, the yacht is set to reach a top speed of 33 knots and have an estimated cruising range of 350 nautical miles.

DIMENSIONS:

Overall Length	61'	18.61m
Maximum Beam	17'4"	5.30m
Lightship Displacement		29 tonnes
Fuel capacity	726 UK gallons	2750 litres
Water capacity	211 UK gallons	800 litres

PERFORMANCE:

Standard engines	2 x Volvo IPS 950 - 27 knots
Engine option 1	2 x Volvo IPS 1050 - 31 knots
Engine option 2	2 x Volvo IPS 1200 - 33 knots
